## **Search - #21BiologyAdjunct**

The University of New Haven invites applications for adjunct professor positions in Ecology, Molecular Biology, Biochemistry, and majors and non-majors General Biology to begin in Fall 2021.

The Department of Biology and Environmental Science at the University of New Haven invites applications for adjunct professors to teach General Biology, Ecology, Molecular Biology, and Biochemistry during the Fall 2021 semester, with a potential to extend into future semesters. These courses serve several majors including Biology, Genetics & Biotechnology, Environmental Science, Marine Biology, Forensic Science, Health Science, Nutrition and Dietetics, Dental Hygiene, Paramedicine, and Medical Lab Sciences. The teaching load will consist of up to three lectures and/or labs in the described fields with the applicant's specialties and experience being taken into account. In most cases course content will be provided for adaptation.

A minimum of a Master's degree in Biology or related field is required, Ph.D. preferred. The ideal candidate will have some teaching experience at the college level and a commitment to student-centered teaching is required. Preference will be given to those with a record of teaching excellence at the university level. Familiarity with online teaching is a plus, but these courses will require an on-campus component from the successful applicant.

### **University of New Haven Diversity, Equity, Inclusion, and Belonging Vision**

The University of New Haven is a diverse institution that celebrates, respects, and values individuals of all social identities. We believe that as members of the university community, our socio-cultural differences ignite intellectual growth and foster a culture of understanding that embraces our ever-changing society.

### **How to Apply:**

Consideration of applicants will begin immediately and will continue until the positions are filled. To apply, please send the following electronically to Dr. Nikolas Stasulli, Coordinator of the Biology and Genetics & Biotechnology programs, at [nstasulli@newhaven.edu](mailto:nstasulli@newhaven.edu): 1) a brief cover letter explaining teaching experience and philosophy, 2) a CV, and 3) the name and contact information for three references. Finalists may be asked to submit examples of their teaching excellence, including syllabi and student evaluations. Be sure to include "Fall 2021 – adjunct application" in the email subject line.
