

University of New Haven

**Assistant Professor – Environmental Science
Department of Biology and Environmental Science
College of Arts & Sciences
Search # 21-12F**

Description:

The Department of Biology and Environmental Science at the University of New Haven invites applications for a tenure-track Environmental Science position beginning August 2021.

The Department seeks to hire a teacher-scholar with a background in the ecology of coastal systems. We invite applications from candidates with experience in multidisciplinary approaches to research in areas including, but not limited to: ecological responses / adaptations to climate change in coastal environments, the resilience of complex adaptive systems, and the conservation of natural and built ecosystems in relation to environmental change. We are particularly interested in candidates who study processes at multiple spatial and temporal scales and use quantitative approaches to answer basic questions in ecology.

The University of New Haven is a private, top-tier comprehensive institution that provides students with a combination of a solid liberal arts education and real-world, hands-on career and research opportunities. UNH enrolls approximately 6,900 students, including nearly 1,800 graduate students and more 5,100 undergraduates - the majority of whom reside in University housing. Through its College of Arts and Sciences, College of Business, Henry C. Lee College of Criminal Justice and Forensic Sciences, Tagliatela College of Engineering, and School of Health Sciences, UNH offers more than 80 undergraduate and graduate degree programs.

Qualifications:

Candidates must have earned a Ph.D. in a field relevant to environmental or marine science and are expected to build a record of excellence in teaching, scholarship, and service. The successful applicant will teach in the Department's MS and BS Environmental Science Programs, and potentially in its Marine Biology and Marine Affairs undergraduate programs, and establish a vigorous program of high quality, independently funded research that involves both graduate and undergraduate students. The Department also has undergraduate programs in Biology, Genetics and Biotechnology, Biochemistry, and a graduate M.S. program in Cell and Molecular Biology.

Diversity and Inclusion:

The University of New Haven is committed to diversity and inclusion in higher education. The University seeks candidates whose teaching, research and/or service has prepared them to contribute diversity and inclusion in our academic community. Applicants are asked to submit a diversity and inclusion statement explaining how their teaching, scholarship and/or service, contributes to building and supporting diverse and inclusive communities.

Application Process:

All information on candidates will be kept confidential. Review of applications will start immediately and continue until the position is filled. Qualified candidates should submit 1) a cover letter that includes a description of relevant qualifications, 2) a curriculum vitae, 3) a statement of teaching philosophy and achievements, 4) evidence of teaching experience (including course syllabi and student feedback, if available), 5) a diversity and inclusion statement, 6) a brief statement of research interests and plans, and 7) contact information for at least three professional references. All materials should be submitted online at apply.interfolio.com/85437

The University of New Haven is an Equal Opportunity, Affirmative Action Employer.
