

What's in your Watershed?

A Coastal Clean-Up Event featuring artist sTo Len

Join artist sTo Len, University of New Haven's COASTS project (Citizen Opportunities for Accessing Science Training on the Sound), New Haven Climate Movement, and Save the Sound for a coastal cleanup event at Canal Dock and Long Wharf. Trash collected during this event will be used in sTo Len's solo exhibition at Seton Gallery, To Dissolve into the Hydrocommons, One Drop at a Time.

Opening October 17, Len's show examines the themes of environmental decay and the interconnectedness of global ecosystems by siting the waterways around the New Haven area as places of artistic exploration.

12-1 p.m.

Talk by artist and UNewHaven Scientists

(Adee Room, Canal Dock)

1-3 p.m.

Coastal cleanup of Long Wharf waterfront

3-4 p.m.
